MUNICIPAL FINANCES.

Only the other day Lord Mayor Seeber declared that the Municipal Treasury was exhausted; that the proceeds of the ten million gold dollars loan, paid in only six months before, had been spent to the very last dollar; that in the first four months of this year 8,750,000 dollars had already been; expended that bills falling due this month amounted to 930,000 dollars m/n, and last, not least, that the cash on hand in the Treasury amounted to only 123,276 dollars m/n. This was a pretty plain statement of the actual condition of affairs, but nobody was in the least surprised to read such disclosures; in fact, a good many people wondered that the state of affairs was not worse than depicted by the Lord Mayor. In municipal affairs it is a question of "nil admirari" and has been so for the last thirty years.

We all felt that such a dismal recapitulation of municipal misfortunes was read aloud to the population to explain a fresh loan to meet imperious wants of the corporation. We all felt this instinctively, and nobody wondered when the honorable body of Aldermen authorized the Lord Mayor to appeal to the National Bank for the miserable flea-bite of a round million dollars. The exiguity of the amount was, no doubt, a surprise; not so the appeal for more cash, simply to pay the salaries of the municipal employees. It was ever so, and it will be ever so, until some sweeping reform is introduced into the municipal government of the city. The people are resigned: "Sic vos non vobis" may be said to them: like the flock they look to the shepherd,—the Government.

What is most amusing is that, in spite of the awful state of the Municipal treasury, the Lord Mayor actually proposes an extraordinary expenditure of $38,990,000 m/n, neither less nor more. Are we going mad? It is proposed that this expenditure be met by a financial duality of means—by a loan of $22,490,000, with collateral mortgage of all Municipal properties, and by a lottery loan of $12,000,000. Millions everywhere! We beg to remind our readers that the Municipal debt already reaches $30,343,000, with an annual service of $2,000,000, out of an 8 million annual revenue! With a light heart, the Lord Mayor coolly proposes to more than double this enormous debt, after expatiating on the disorganized finances of the Municipality. Verily, we live and learn, for this beats all our Municipal records hollow.

If the people can scarcely afford to pay the actual Municipal taxation, what will happen when that taxation shall be doubled or trebled to meet the fresh indebtedness of the city? The very stones in the streets will rise to protest against such folly and madness. The men who govern this city must be off their heads if they countenance for a moment such an enormous increase in the Municipal debt. Matters are bad enough as they are, but there is no need of making them worse: better leave them alone, for in the midst of the present lamentable confusion of ideas and figures the Lord Mayor or the corporation may go off at a tangent and plunge the city into ruin.

Such is the bungling going on, that, whilst the Lord Mayor with tears in his eyes deplores the extravagance and mismanagement of his predecessors, actually condemns the municipal budget owing to its inflated estimates of revenue, he, by some freak of financial conception, coolly proposes to ruin the municipality and the city by a fresh expenditure exceeding that of all his predecessors put together. Such an outrageous proposal has actually called the members of the corporation to their senses; they have opposed the plans of the Lord Mayor and have called for a full statement of accounts. From the latter we gather the following figures of municipal revenue:—

	$
1885.....	4,077,300
1886.....	8,078,788
1887.....	8,831,200
1888.....	? ? ?

The figures are not forthcoming for 1888, as the accounts have not yet been closed, and this in the middle of 1889! The members of the Corporation state that the revenue for 1889 will be much larger than in previous years, as *many new taxes have been created*, and are expected to turn in a round million more than usual. This is, indeed, pleasant news for the townspeople! What will they do in the way of taxation if they meet the 32-million views of the new Lord Mayor? Then we may migrate to other parts.

Lord Mayor Alvear spent, during his term from May 1883 to April 1887, all the Municipal revenue, say $20,205,145 and 26 cents, and left the Municipality with a debt of fifteen millions.

Lord Mayor Crespo, during his short tenure of office, one year, spent $14,273,955 up to December 31 1887 alone, not including the months that intervened until Mr. Cranwell took the reins. Mr. Crespo left bills running to the amount of $5,500,000, and a consolidated debt of $15,000,000, viz.:

	$
Municipal Bonds.....	4,753,342
Loan of 1884.....	10,000,000
Mortgage Bonds.....	600,000
	15,353,342

Lord Mayor Cranwell, according to estimates only of the corporation, spent $25,000,000, leaving bills running to the amount of nearly one million, and a consolidated debt of 30 millions, with an annual service of $2,000,000.

The following resumen is eloquent:—

Year	*Revenue*	*Budget*	*Deficit*
	$	$	$
1883	6,740,574.50	2,045,397.16	4,717,176.10
1884	4,239,583.48	2,311,997.19	4,666,387.67
1885	4,077,300.26	2,311,997.19	4,407,135.15
1886	7,078,788.31	4,164,266.25	14,259,252.52
1887	8,831,209.50	4,316,770.00	14,205,331.75

What kind of financing is this? Are we not outrunning the constable? After a perusal of such figures, who can applaud a further fresh expenditure of 39 millions?

Echo answers—Nobody.

THE GUARANTEE FUND AND BANK-NOTE CONVERSION

EXTRACTS FROM MINISTER VARELA'S ARTICLE

This bill has been much opposed and has been perhaps the least understood by those who oppose it. The Executive has been charged with being desirous of wresting gold from its lawful owners and locking it up. How this charge could be made I cannot understand, for the text of the message is perfectly clear and defines the aim and object of the fund. So far from locking up the gold, the Executive distinctly states that the stock will be continually at the disposal of the market, and for this purpose it is the intention of Government to create gold and silver certificates. In other words, my measures have been grossly misinterpreted, and yet the bills are perfectly clear. Their object stands out in bold relief.....The message accompanying the bill calls attention to the fact that our country is being invaded by European labor and capital, and that it is therefore necessary to prepare ourselves for such an invasion. The opposition press urge us to cross our arms and look idly on, waiting for the soil to yield its production, for industry to spring up, for the country to draw from itself the requisite elements for the conversion of the bank-note. In all this it is quite clear that the Minister's intentions have been either misunderstood or ignored.

We can discern in these attacks the old terror of our engagements abroad, and people seem to ignore that it is precisely on foreign capital and on foreign labor that we are building up the wealth and greatness of the country. In this respect the Minister of Finance and the opposition press hold opposite views. The Minister believes that it is not only necessary to import foreign labor and foreign capital but also, for the proper development of the community, to locate in the country gold-stocks for investors abroad, and which would represent credit at long dates and enable us to pay off the balances for which the proceeds of our exports are not sufficient. The Minister believes that foreign capital should be treated as we treat the emigrant landing on our shores. To the immigrant, before he begins his work, we give board and lodging; to him we give subsequently wages to enable him to remit sums for the support of his family abroad, or that he may accumulate his savings until he radicate himself in the country and become incorporated in its movements. The Minister thinks in that manner, not only because it is logical, but also because we have before us the example of the United States and Australia, and these countries have reached a very high level.

Who is ignorant of the fact that the United States, in the diminution of the gold supply from California and after the great civil war, overcame all difficulties and raised itself to a high level simply through its colossal debts bearing a gold service? Those debts were exported wholesale to draw foreign capital, which at once found its way into banks, railways, factories, etc. That imported foreign capital strengthened the value of the bank-note.

The several states of Australia have a total of nearly 165 millions sterling on the London market, that is to say about six times as much as we owe, and it is due to that immense capital, the interest on which those states pay without feeling the slightest difficulty and without being exposed to the danger of having the securities thrown back on them; it is due, I say, to those immense sums that those colonies prosper and are, economically speaking, independent of the mother country. We cannot prosper, we cannot develope without foreign capital, and if we fear or hesitate to increase our gold engagements, we simply close our eyes to the law which governs the progress of peoples like the Argentine nation, which for many years to come must be dependent on imported labour and imported capital.

The opposition press fear that the gold and silver of the National Treasury will find their way to foreign markets. But those writers who attack the bill ought to know that such has been the case for the last 20 years, and that we only began to prosper when we began to contract debts and pay service thereon. The objection raised by the opposition press was anticipated in the message accompanying the Bill Read the following extracts:—

"It may be argued that the guarantee and conversion fund in the National Treasury will prove costly for the State, and that the possible withdrawal and exportation of the gold and silver will involve a more costly importation of the precious metals. That is quite possible, but possibility is the limit of everything.

"If, in consequence of the irregular conditions of the growth of the country, of the irruption of large bodies of men, it is necessary to be prepared for momentary disturbances, it is the duty of the State to meet the exigencies of the community at any cost. We know that the sacrifice of to-day will be amply compensated for to-morrow. The experience of other nations proves it, We may be compelled to spend to-day, but to-morrow we reap, as the United States have reaped. If the guarantee fund prove costly for the State, we must not hesitate, for the community will benefit by the stability of the bank-note. The advantages accruing from the stability of the note are infinitely above the cost of the measure, although we may not at first see it."

The foregoing extracts anticipated and now refute the arguments of the opposition-press. But let me turn to the main object of the Bill. The grand aim of the Executive is to place our paper money on a specie basis. The arguments adduced by the Executive have not even been studied by the writers in the opposition press. The Executive has proved that gold cannot be the sole basis for future conversion. This is the essential point, the pivot of the problem to be solved. The Argentine Republic has to-day two classes of money—gold, which has a fixed value, and paper, the value of which must vary. The current value of paper money, that is, the value on the day of payment, may vary to such a degree as to produce a disastrous depreciation.

Turning to our present situation. The Uruguayan Republic and Brazil recently launched loans abroad, and their respective Governments were authorized to draw. The natural consequence was that the exchange rates in both countries rose rapidly. At the same time, by a singular coincidence, our exchange-rates under commercial pressure and other circumstances fell. A legitimate speculation sprang up, and Montevideo and Rio Janeiro freely purchased our cheap exchange. Thus 12 millions have left our market for Rio and Montevideo within the last five months. In other words our stock has been considerably reduced by that efflux of gold. To that we must add the greater bulk perhaps of the amount of gold exported. I allude to the sums taken on securities at different dates, or on mortgages, which I mention merely to shew that there are very many other circumstances, independently of our engagements abroad, to account for the heavy export of gold. These demands for gold explain the fact that the premium is over 60 per cent. The Executive has sought to remedy the evil, and the opposition press, on the contrary, are desirous of letting things continue as they are. And how does the Executive wish to remedy the evil? Simply by strengthening the value of the bank-note, not only by means of gold for which there is a general demand, but also of silver which cannot be exported either to Montevideo or Rio Janiero. Silver will only be exported when we have nothing else to export. The value of silver in relation to gold will be fixed, and its introduction will prove of incalculable benefit. The Minister may be mistaken, but his conviction is that silver will powerfully contribute to steady the value of the bank-note.

VICEROY OF IRELAND.

THE SEASON AT AIX-LES-BAINS.

Aix, May 16th.

A bill is to be introduced into the House of Commons to abolish this post, as proposed by Lord John Russell in 1846. At present there is no Viceroy in Ireland, and nobody can be found to accept the doubtful honor. When Lord Londonderry resigned, the office was tendered to Lord Aberdeen, then to Lord Ormond, then to Lord Cadogan—all of whom refused it. It is hardly surprising that Lord Salisbury is unable to find a man to take so inglorious a post. The abolition of the Vice-royalty is, therefore, the best solution, and no Irishman will regret it. All the infamy and crime of the Bastille falls short of the record of the Irish Viceroys—Strafford, Essex, Carew, Buckingham, etc. Two of these scoundrels, Strafford and Essex, were afterwards executed on Tower Hill, and Buckingham, who was sent to the Tower, escaped the axe by dying in his bed.

It is little short of a feeling of relief to think that the last of the Viceroys has left Ireland for ever. He was a Castlereagh, and the name is so "funesto" that it makes a suitable finish to the bloody and barbarous category. There is some talk of the Government asking Parliament for £500,000 to build a royal residence at Dublin, so that the Prince of Wales or Duke of Edinburgh might go over to Ireland every year for a fortnight or even a month to enable the loyal and warm-hearted Paddies to gaze with delight on the royal faces. What asses the House of Commons must contain if they accede to such a project! The people of Ireland are precisely in the same temperament as the Hungarians of 1848: they want to have the control of their own affairs, and as soon as this is granted them they will give any member of the Royal Family as cordial a welcome as the Emperor Francis Joseph now gets whenever he goes to open the Hungarian Parliament at Buda-Pesth.

But, it is beginning at the wrong end to build a palace and send over a prince until the Home Rule question be arranged. You may build a palace in every Irish county, and have four-and-twenty of the Queen's children and grandchildren playing Lawn tennis on the Curragh of Kildare. It will amount to nothing. The people of England are sadly be-fooled in these matters. They think that the demand for Home Rule is the result of Her Majesty's supposed animosity against everything Irish, and that a "rapprochement" on the part of the Royal Family would make Paddy the happiest and most contented peasant in Europe. Earl Cooper knows better, and says the Land Question is at the bottom of all the trouble.

Viceroys may come and go, or be abolished altogether. They are by no means useful, since their names are simply appended to Coercion laws, suspension of Habeas Corpus, proclamations against public meetings and other Cossack ordinances. Neither can they be considered ornamental; a Castlereagh, for example, can never be a pleasing object in the eyes of an Irishman. Being neither useful nor ornamental it may be asked why they are continued. "Take away that bauble" as Cromwell said of the mace in the House of Commons. "Oh Sir Harry Vane, Sir Harry Vane, give place to honest men." Thus history is repeating itself. The last hour of the Gesslers of Dublin Castle has sounded. Too long have the people of Ireland bent the knee to a Viceroy's hat stuck on a maypole.

Visitors are rapidly pouring in here from all quarters. This morning Baron Andrade and family arrived. The place has gained much in reputation by the marvellous recovery of Dom Pedro Segundo last year. I suppose the waters are good for many complaints, but their special fame is for curing rheumatism. Hence you see numbers of men and women limping about the streets when they first arrive. A lady from Sussex who sits next me at table assures me that when she came here first, two years ago, she had quite lost the use of one leg and was carried about everywhere, whereas now she is able to take long walks, and the only trace of the rheumatism left is in the palm of her hand. At 7 o'clock everyboby goes to the bath, which adjoins a well-preserved Roman arch with the inscription Caius Pompeius.....; but whether this be the real Pompey I cannot say

Most people take a "douche"; those who have bronchitis get the 'jet d'eau' turned on their throat, and the cure is sometimes effected the second day. It is amusing to stand at the gate and see dozens of patients carried out in succession in closely curtained palanquins, like those formerly used at Bahia. The superintendent, Dr. Blanc, speaks English well, having spent some time both in London and Dublin, to accustom his ear to the pronunciation of people from England and Ireland; he is very proud of Dom Pedro's recovery. After the bath many are ordered to drink a glass of Challes water, which has the smell and taste of 10,000 rotten eggs reduced to a quintessence. For this delectable beverage the village apothecary charges only 2 pence. Thousands of patients from the ends of the Earth have to pay this Esculapius his tax for a glass of water that springs up free of charge for the benefit of suffering humanity. Here you have as flagrant a monopoly as ever was seen.

The price of baths also seems high, being two shillings a day, but then it must be added that two nurses, men or women according to the patient's sex, gently put you through a course of "massage", kneading you all over as though you were a piece of dough, and this is said to have more efficacy than the water. Patients for the first week feel the most intense lassitude and weariness; they are unable to walk or do anything, but that wears off afterwards. Some people go through the course, merely as a preventive against rheumatism, which the doctors much recommend. You pay a fee of £2, and the doctor for this will advise you, attend you, counsel you, comfort you and encourage you during the course.

"Good living" as it is called is the origin of many of the ailments of people who come here: you see turtle and port-wine in some of their faces. If the people of Northern Europe were as temperate in eating as the Italians, without being at all austere or abstemious, places like Aix would have fewer visitors. But there are also many, especially rheumatic patients, who are compelled to come here by constitutional debility. That the waters or the massage prove exceedingly efficacious there can be no doubt. All that I see and hear convinces me that Aix-les-Bains well deserves its high reputation.

M. G. M.

PATRICK EGAN.

We subjoin some press extracts relating to Mr. Blaine's appointee. We understand that the Minister left the United States for his destination on May 2, so that in the course of a few days he ought to be in a position to correct his information respecting this country and the nationality of is public men.

Frank Leslie's Paper.

Patrick Egan, the United States Minister to Chile, was born in Ireland in 1841, and at an early age entered a great corn merchant's firm in Dublin, and soon rose in rank until, long before middle age, he found himself at the head of one of the largest firms in Dublin. He took part in the revolutionary movement which culminated in the attempted insurrection of 1867, and was one of the organizers and members of the Council of the Home Rule League formed in 1871. In 1874 he organized the immense demonstration that greeted the remains of O'Mahony, the Fenian leader, from New York. He also organized the popular uprisings that greeted Davitt and his comrades on their release from prison. He was one of the founders of the Land League, and was made its treasurer, In 1880 he was indicted, with Messrs, Parnell, Sexton, Dillon, Biggar and others, for conspiring to incite the tenantry of Ireland not to pay rents, deterring tenants from buying land from which other tenants had been evicted, conspiring for the purpose of injuring the landlords and forming combinations for the purpose of carrying out these unlawful ends. The trial was a solemn mockery, but the jury was finally discharged without agreeing on a verdict. After the Phœnix Park murders in 1882, which Mr. Egan always denounced as a piece of atrocious folly, he came to this country and settled in Nebraska where he has since lived. He has been engaged in the grain trade during his residence here and has also taken an active part in politics as a member of the Republican party. From 1884 to 1886 he was President of the American branches of the Irish League, of which Parnell is the chief. He is a man of methodical life and habit, and it was owing to this trait that he was enabled to expose the Pigott forgeries, with which the London *Times* attempted to convict Parnell of encouraging crime in Ireland. Mr. Egan has always acted with the Republican party.

New York Herald, April 8.

I saw Mr. Patrick Egan, the recently appointed United States Minister to Chile at the Astor House late last night. Mr. Egan is somewhat under the medium size, wears his gray sprinkled beard in the style affected by General Grant, and has the least touch of a brogue in his conversation.

"I shall not start for Santiago until early in May," Mr. Egan said, "and I shall be in this city at the end of the present month to see the great Washington inaugural centennial display. While I was in Washington I met several gentlemen from Chile and was assured by them that my reception in that country would be hearty and cordial. And why should it not be? Bernard O'Higgins, an Irishman, was the George Washington of Chile, and also its first President and Commander-in-Chief. The late Henry Pratt, a philanthropic railroad builder, to whom a monument on the site of the recent Exchange in Santiago is now in process of construction, was from the green Isle, an Patrick Lynch, who led the army in the last war, was also an Irishman."

"There have been some unfavorable comments upon your appointment, Mr. Egan," I remarked.

"Yes: but if you traced them to their sources you found that they came from mugwumps and democrats."

"There has also been comment upon an assertion attributed to you by an evening newspaper, accusing John Devoy of having betrayed the interests of Ireland."

"I never made such an assertion. I want no controversy with Mr. John Devoy," was Mr. Egan's curt reply.

With regard to the climate of Chile Mr. Egan said that he had no fear. "An Irishman can live anywhere, you know," he added, "and besides, Santiago, in which city I shall make my headquarters, has a peculiarly healthy and salubrious climate."

OTHER PAPERS

The *New York Times* says:—"His nomination is an insult to American citizens, of whom Egan is not one, he not having yet completed the process of naturalization. He is absolutely nothing in American public life but a blatant Blaine-Irishman. The *Evening Post* also resents the appointment. It declares that Patrick Egan represents merely the debt Mr. Blaine owes to the Irish; and, if payment was necessary, it should be by a domestic appointment. It is a serious error, the *Post* thinks, to throw the Irish Leaguer and the English Minister together in Chilian affairs.

Dr. Araoz sent an inspector yesterday to make inquiries into the complaints made against the Central Argentine by Senator Artega, Deputy Varela Ortiz, and Dr. Benito Villanueva. These dignitaries appear to have been ill treated.

An article appears in the *Voz del Rio Cuarto* against the Andine Railway. The lessees are charged with having "converted an element of progress into an instrument of unbridled passion and greed for lucre," and with "employing servile mercenaries to fleece the public." Ye gods! It is not often we have occasion to hear the voice of Rio Cuarto, but it is loud enough to wake the dead.

Inspector Nolasco telegraphs that an Andine train went off the track at kil 148 on the 12th inst. Luckily no loss of life occurred.

The Central Argentine Railway Company has finished the first part of the first section of the line from Cañada de Gomez to Las Yorbas, from the latter place to Las Rosas. Mr Fisher, the manager, has asked the Minister of the Interior to name an Inspector to examine the work, that it may be opened to the public on the 1st of next month.

EDITOR'S TABLE.

The Municipal financial statement was the lively note of the day yesterday. It is so monstrously long that few had time to wade through it: but the marrow of it is that, between ordinary and extraordinary outlay, leakage etc. etc., the government of this good city of Buenos Ayres has cost no less than *sixty-five millions* of dollars in the last six years. This is tolerably fast living. This startling report shows an unpleasantly serious state of things in the city cash box.

It was generally rumoured yesterday that the La Plata Court of Appeal has decided that the Olavarria murderer, Castro Rodriguez, shall be shot. One of the Judges of the Court has not yet given his decision.

Telegrams from Italy yesterday announced the death of Mr. Jose Carminati, the well known Bolsa broker.

Romeo and Juliet was produced at the Politeama on Thursday night before a crowded house. It was a splendid triumph for Patti and the 'empresa'; see our musical critic's opinion in another colomn. Faust again to-night, and Romeo and Juliet to-morrow.

A shower of mails fell on our devoted heads yesterday from all quarters of the globe, and we had to hoist the editorial umbrella. The Red Star Agency added to the downpour by sending us English and New York papers, some of the lacter with really superb illustrations of the Washington Centenary.

We have received a communication from Mr. W. H. Mauser, the well known trainer of Newmarket, altogether depreciating the character of horses recently purchased for this market. We may observe that, although we do not altogether agree with his opinions, yet Mr. Mauser is a competent authority. He says:—"Fancy such horses as Annamite and Acme to run on your courses; they are great overgrown horses that could not win Selling Races on hard ground—impossible to train them if the ground is hard—Gay Hermit by far the best class sent out—Bismark no fest—St. Mirin a bad roarer, Devilshoof a plater, Ormonde at the Moulton Paddocks here coverisg mares, and a bad roarer also. Rada coming out a little rat, and very moderate, and tailed off here on April 11th." Our Sporting Editor would like Mr. Mauser to send him out a cheap colt of his own selection to beat the cracks!

The following telegrams await claim at the "Internacional", 281 Reconquista: Weno from Reims, Habaro from Rio de Janeiro, Protto from Genoa, Pichman from Paris, Restrevor from Liverpool, Zandoby from Berne, Villa, Capitain of Maria, from Genoa, Whimsical from London, Hilla from Genoa.

Where is the Health Inspector on the Flores Road? A worse than "vasura" depot is being started on a piece of waste ground alongside Mr Pinto's beautiful new chalet. For several days past dozens of carts are engaged all day in unloading stable dung on this ground. It steams thickly, and the families in the vicinity get nausea from the fearful stench. There is a great deal of sickness in Almagro, and this fresh focus of infection will certainly help to spread it. Such an abuse is monstrous on the most frequented road of the city, and cheek by jowl with beautiful mansions. We call the attention of the Health Inspector of the district to this dangerous nuisance.

The railway accident in Ulster as reported by cablegram caused a very painful feeling in English-speaking circles yesterday. No more terrible disaster on a railway has ever occurred in the United Kingdom. The fact that nearly all the victims were innocent young children out for a holiday adds greatly to the shock of such a truly awful tragedy.

The Constituent Convention at La Plata, urged by the quips and jibes of public opinion, managed to get up a quorum on Thursday. But the whole sitting was spent in moving and rejecting proposals to expel those members who never attend, and nothing whatever was done. This C. C. is, and always has been, a most sublime farce, and the sooner it is dissolved the better.

More borrowing in the provinces. On the heels of the Cordoba Municipal Loan for three millions now comes the Corrientes Corporation for a round million. How these Interior towns expect to emerge from all this borrowing it is hard to see. There'll be "a bad quarter of an hour" for most of them some day not very far off.

Faust will be repeated this evening at the Politeama. This opera is ever welcome in Buenos Ayres, almost as much so as our old and esteemed friends The Huguenots.

A morning colleague rubs up the Alcaldes of the city for their gross inattention to business, and the outlandish hours they select for attending to it when the spirit moves them to do so, which is preciously seldom. From 9 to 10 at night is certainly the funniest hour imaginable for transacting judicial business. The honorable Alcaldes require some strong hint from the Judges.

The three venerable moles have only three months more to live. In September they will be torn down to make way for the Port Works, and the occupation of those well and most unfavorably known customers, the Ligurian boatmen, will be gone. The order of destruction of the trio of moles will be first the Catalinas, then the passenger, and last the Customs House.

A Telegram to the *Globo* says that Germany has broken off diplomatic relations with Switzerland on account of the Wegelmuth affair.

The Brazilian papers report an appalling drought and famine in the province of Bahia. The starving people are flying in all directions, tearing up and devouring roots and any refuse that comes in their way.

It is proposed to start steam trawlers at Mar del Plata, where the abundance of fish is only exceeded by the phenomenal swarms that seek the shelter of San Blas Bay. The enterprising gentlemen who propose to go a fishing are pleased to say that trawling is a new system of catching the finny tribe. It may be new to them, but certainly is not in itself, as it is about the oldest system of fishing known.

The *Patria Italiana* has a telegram stating that the Italian Consul in Trieste was treated to a dynamite bombshell at his hall door on Wednesday, but he is still above ground.

Three plucky young street Arabs effected their escape from the Policia on Thursday and have not since been found.

An American judge was obliged to sleep with an Irishman in a crowded hotel, when the following conversation ensued:—"Pat, you would have remained a long time in the old country before you could have slept with a judge, would you not?" Yes, yer honour," said Pat, "and I think yer honour would have been a long time in the ould country before ye'd been a judge, too."

We had not the remotest idea till yesterday that this country boasts a pack of hounds, with a real, live lord for a Master. The Rosario *Reporter*, however, has the following paragraph in its last issue to hand:—"Due to the bad state of the weather Lord Ourresin's hounds did not meet on Sunday as was anticipated. We hope that in a few days we may be able to give our readers an account of what we believe will be the first hunt of the kind which has ever taken place in this Republic."

The same paper says that the performance of Othello by the scratch Italian opera company there now created such interest that a seat could not be had for even ten dollars. The chief reason for this was that a tremendous row was generally expected, but nothing of the kind took place. The singers did their best, the audience listened quietly, and there was no disturbance of any kind.

Still more news from old Rosary; this time for our Brothers in the Rowing line: "A floating boat house is being built at the building yard on the barranca below the Boulevard Argentino. Its size is 53 feet by 40 and rests on a sort of raft. The house will present a very pleasing look when finished. On either of the four sides there are three doors which lead to landing places. It has room for 12 boats. When completed it will be placed between the National and Aldao moles."

Half the new houses being built in town will have to be stopped if the weather break again and prevent the roads from drying up. A thousand bricks cost 14 dollars when the supply can be kept up; now the price of that number is from 25 to 30 dollars. A house built at such cost will have to be rented at a pretty stiff figure to give even a moderate return for money.

Oh! Gracious! The Messenger Company is in trouble while in its cradle. It put up its wires without getting the required permission from the Municipality, and now the Lord Mayor has ordered them to be taken down. This will play old Harry with this useful company, and we hope the Lord Mayor will reconsider his decision.

The Amateur Photographers Club was inaugurated last night, in Ferreto's establishment in Calle Florida. It is rather a swell concern. The fitting up cost 10,000 Nats.

The increase of drunkenness in this city is really becoming quite a social danger. Nearly all the stabbing cases and half the murders are done by inebriated men. It would be a good thing to try the Danish police system to keep down drunkenness in the streets. When seen to be "incapable" the victim of the glass is first taken to the police office in a carriage, and then driven to his home. Next morning the police call on the tavern-keeper who supplied him with the last glass of liquor, and present Boniface with the bill for the coach hire, and that of the doctor also, in case the drunkard had met with any mishap owing to his helpless condition. This curious system makes the tavern-keeper very cautious about the stability of his customers' legs. The Municipality ought to give the Danish wrinkle a trial.

The Chief of Police of Rosario has prohibited whistling and singing in the streets. The edict seems arbitrary; but if we intend to aim at the degree of Culture so ably treated of the other day by our new colleague the *Independent* of Montevideo, the sooner we begin the better. The suppression of tram-horns would also help us on the road to culture.

Another wreck in Magellan Straits—the German steamer Olympia, the same that collided with the Cotopaxi. No details yet.

If there are any bakers amongst recent English arrivals here, they should jump into the next train for Rosario, where the scarcity of hands in this indispensable line is so great that one bakery concern has to pay six dollars a night for a master baker. The rise in the price of bread is enormous, and must tell fearfully on the working classes. Yet Congress keeps a duty on foreign wheat. Oh! Protection, what evils you bring in your train.

The Socialist Club held a meeting on Thursday evening. As Mr. Malatesta's connection with the recent forgeries ensured his absence, a working man named Mattei was voted to the Chair, and said that the meeting was called specially to discuss the unpleasantness in which their Chairman was mixed up. A Frenchman then took the floor, and protested against all Socialists being called criminals by the papers, because one had gone wrong. Several others spoke, amongst them a Spaniard, who said that Malatesta did right to forge money wanted for Socialist purposes. The meeting, which was very noisy but not quite disorderly, broke up at 11 o'clock.

An old farmer, returning from the wedding of a niece in a distant city, was eagerly questioned by his family as to the bride's costume. "Well," said he, "she had on some kind of a dress, with a lot of flubdubbery of some sort or 'nother down the front of it, and a thingamajig on the back of it, with a long tail of some stuff—I don't know what it was—dragging out behind, and

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London

Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, In Cholerate Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain.

His Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

ESPECIFICO DE

Hayward en Polvo

The cheapest and most effectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.

It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.

It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

See Testimonials from Flockowners in the Argentine Republic.

Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.

Established upward of 45 years.

Sold in cases containing either 80 small, 20 medium, or 10 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

There was a slight revival in the speculation in the sovereign stock to-day, and in fact shares all round were firm an buoyant, a healthy sign, although th liquidation squeeze is still out of reckoning. In National Bank Shares, a hundred were sold for to-morrow at 264.50, and 3,000 for end of month, opening at 265.50 and closing at 266. Cedulas were rather neglected, and Provincial M, N and O were weak. Constructors advanced to 137 for cash, and 137.50 for end of month, and many parties discussed to-day the steadiness of these shares, once known as the "meteoric" stock, on account of the violent fluctuations to which it was subject. Credito Real shares were quiet but in good demand at 158 cash and 159 for end of month. La Plata Moles improved from 165 to 167, but Pobladores Scrip fell off to 54 for cash and 55 for end of month, due to rumour that the sale of the concession of the line has not been yet effected. Pobladoras were steady at 189 and 190, and Reaseguros at 146. Little was done in the other stocks, although almost all were quoted.

The National Bank granted gold to-day to the amount of $158,950 at 65.80 to 66 o/o premium. In the market it is stated that only a small fraction of the applications are met by the Bank. It would be, perhaps, better for the requirements of the market, and better for the interests of the Government, if the Minister of Finance sold gold every Saturday on 'Change. Let a notice be put up in this fashion, say every Friday; "the Treasury will sell to-morrow five millions," or two millions as the case may be. This would be a more satisfactory system than the daily small grants of the Bank.

In some quarters it was believed to day that the great cause of the rise in gold was the phenomenal statement of the Finance Committee of the Municipality. The whole market was staggered, and all to a man opposed the mad idea of increasing the Municipal Debt by 39 millions. The statement produced quite a sensation, and many wonder if we are living in the moon. After the publication of such startling figures, it requires no ordinary presence of mind to ask for 39 millions to burden the people of this city.

The returns of the Custom-House yesterday amounted to 241,025.24: the returns of the year up to date are $21,394,793, against $15,520,395 in the same period last year. This shows a balance in favour of this year up to date of no less than $5,874 199, a great difference in so short a time. It is probable that the returns of the Custom-House of this city this year will exceed the revenue of 1888 by twelve millions. There is no denying that our revenue is growing fast.

A most unexpected decree was issued by the Minister of Finance to-day, nothing less than the suspension of the redemption of Hard Dollar Bonds. It appears that some favourable proposals have come from London to alter the decision of the Government. The decree runs as follows;

Buenos Ayres, June 14th 1889

Whereas the holders of public bonds, known commercially as Hard Dollar Bonds, have sent in appeals with regard to the form of redemption ordered by law No. 2,096 of the 6th November 1888 and by decree of 6th February 1889; and considering that the Minister of Finance has operations pending that may remove the difficulties made; the President of the Republic decrees:

Art. 1st—The Public Credit Office shall suspend until further notice the redemption of public bonds of 1863, known commercially as Hard Dollars, and shall continue their service of interest and sinking funds as up to the present.

Art. 2nd—The message and bill providing for a new form of redemption of those bonds, shall be sent to Congress.

Art. 3rd—Let this be communicated to the General Accountant and to the Public Audit Office; and let the present decree be telegraphed to the Argentine Minister in London, that it may be published in that city.

JUAREZ CELMAN.
RUFINO VARELA.

Since writing the above we learn at a late hour that news was received from London to-day announcing that the Argentine Minister has arranged with the leading London bankers, Messrs. Stern Brothers, for the conversion of the Hard Dollar Bonds into new ones of *three* and a half per cent, with one per cent amortization, at par. It appears that Argentine credit in London is "booming" upwards, in spite of our currency troubles.

The Government signed to-day the decree incorporating the London and River Plate Bank under the Free Banking Act, with one million dollars note issue.

We hear that yesterday a large loan transaction for one million gold dollars was effected in this market on Montevidean stocks, and we suppose the gold went down last night to Montevideo, where there is at present a "krach" in that market, caused by the sudden fall in Obras shares; but certain parties here who are well up in Montevidean affairs say that the fall was caused by the holders themselves, who want to buy up cheap for a still further advance.

Minister Varela, in his very able paper published this morning, attributes the rise in gold to the large amount of bills on London sent up from Montevideo and for sale here, over £200,000, and also to the fact that the National Bank of Montevideo holds 600,000 gold here to draw for it at sight.

On Sept. 1st both the passenger and the Catalinas moles will come down to make room for the outer wall of the Madero Port Works. This will cause a great change in Buenos Ayres, as all the passengers will, after that date, have to land at and embark from the Boca and the Darsena. The north wall is already begun. These port works are going ahead as fast as the country itself.

To-day the first meeting of the board of the Provincial and Mortgage Bank was held. They say that the applications for discount standing overat the Provincial Bank in this city reach six millions. We note the very high compliment the Governor of Buenos Ayres has paid Mr. Casey insisisting on his remaining on the board, although away, we may say, permanently in Montevideo.

Gold to-day was done in the morning at 165.70, but in the evening it took a bound up to 166 and closed at that rate, which is alarming the whole market, and more especially those parties who have to remit.

The Banco Sindical de Rosario has just made an enormous purchase of property in Rosario for seven millions. Now, where on earth did they get the money from? Managers of private banks in Rosario should be on their guard against land bills. We have nothing in this market to rival this seven million business.

Business at the second hour was brisk all round, though there was no change in the actual state of affairs. The sovereign stock was freely dealt in for end of month, opening at 265.50 and fluctuating up to 266, at which it closed, and at 265 for end of July. Constructors occupied a good deal of attention, there being buyers for all dates, and prices closed firm at 137 for to-morrow, and 137.50 for end of month. The scrip improved to 93, and Obligations to 14.60, closing at 14.40. In Catalinas, only one sale of 100 shares at 162 for end of month was noted. Credito Real improved to 160 for end of month, but closed at 159. Pobladora was steady as a rock at 190, and Pobladores Scrip recovered a little to 55 for to-morrow, 57 for end of month, and 59 for end of July. The other shares were barely quoted.

The fall in Obras Shares to 97.50 attracted much attention, and holders felt anxious to know what is on foot. The present fall, however, is attributed generally to speculative tactics, and it is expected that the shares will soon be over par again.

The fast Italian steamer Vittoria (Stoppani mail) cleared to-day, taking a crowd of first-class passengers. Our old friend, Dr. Lausen left for Europe in her with his family. We hope the trip will do his health good, and that he will soon return to Buenos Ayres, where he has so many friends.

Late exchanges bring the prospectus of the Argentine Southern Land Company Ld. of which advices have already been received by cable. The capital is fixed at £280,000 in £10 shares, and the object of the Company is to purchase 24 leagues of land in Chubut in first instance, and secondly to acquire the concessions of 298 leagues of land, partly in Chubut territory, and partly in the Rio Negro territory. The Company agrees to pay the vendors £220,000 for the property, which contains over 2 million acres, ⅓ of the total capital in shares, and the balance in shares or cash at the option of the board of directors, which is composed as follows:

Directors—Colonel Lawrence Heyworth, Richard Huxman, Esq, William Rodger, Esq., Henry Stokes, Esq., Athur Wellesley Watson, Esq.

Local Committee in Buenos Ayres—Asahel P. Bell, Esq, C. E., Buenos Ayres, Charles H. Krabbe, Esq., Charles Lockwoo', Esq.

A rumour is going the rounds to the effect that an English syndicate is being formed with the object of buying up all the Rosario tram companies. We shall try to find out what the truth is in the matter and report.

The Royal Mail packet Don sails tomorrow with the following full list of passengers and a large consignment of gold, though the exact amount is not yet known, as these remittances are reserved for the last moment. Up to this evening £55,000 has been shipped; but by to-morrow this amount will have swollen to much larger dimensions. The following is the list of passengers:—

C Fair, Briscoe Ray, G K Kanterowig, F Blythman, A Shanks, A B Finlay, B Shedewanis, Mr and Mrs McGarril and 2 children, Mrs Goddard, Mr and Mrs C W Humphreys, Miss Bolleau, A Webb, H T Grigg, Miss Eyton, Mr and Mrs Garrett, W Woodgate, H C Siddons, Mr and Mrs W White, Mr and Mrs Simons, T Perry, Alfredo Jorge, J Bodzlio, Mr Salvador Sacco and family, Mrs Grigg and family, Mr Rhodes, D A Sheuman, William Martin, W Moiggs, H Ansdell, Alex Gorordo, Alfonso Laforgue, Madame C Laforgue, Captain Kenyon Slaney, Chas S Lawson, Mr Flower, Miss Hewitt, Antonio B Galleno and family, A E Martin, C U S Hopson, Messrs Jones and Edwards, J H Kidd and family, Mrs Goya and family, J Walton, H Crawford, Mrs D Methven and child, Mr Dowling, George Morgan and 2 daughters, Mr McVicar, Mrs Garcia and maid, Mr Carilla, and Mr Caillard.

The prospectus and statutes of a new concern, entitled the Emporio Industrial Argentina, were handed round to-day. The capital of the company is set down at one million dols. in ten thousand shares, payable as follows: 5 o/o on subscribing, 5 o/o on constitution of company, and the remaining 90 o/o at the discretion of the board in calls not to exceed 10 o/o, and with a month's notice. The general object is to foment National industry by advancing funds to mechanics and manufacturers, receiving in payment products of their labour; receive on sale all products of the country; act as agents between business firms and manufacturers. The board, which is a guarantee of the "bona fides" of the business, is as follows:

President, Sr. R. Lagos
Vice-Presidents—Sres. J. B. Medici and R. Camere
Secretary, Dr. J Coustau
Treasurers, Sres. M. Camuyrano and J. Bollo.
Members—Sres. Maraini, R. Carou, C. M. Seeber.
Substitutes—F. Schwarz, J. Huergo, E Ansaldi.

Advices from the Mount announce that the National Bank project for a Government guarantee on Cedulas is being vigorously debated in the Chambers, where it meets with a certain amount of opposition, although there is little doubt that it will ultimately pass. The s.s. Silex brought 2695 dollars in specie from Salto and ports.

With regard to the 20 proposals for construction of the port at Montevideo, they are all at present under consideration of the War and Marine Department, from which they will be passed to the Public Works Committee.

Yesterday the National Credit Company began to change the shares for debentures, in accordance with the tenders presented and accepted.

The Caja Nacional Uruguaya opened its doors to the public yesterday. Mr. Titus Marengo is managing director.

The 15th inst. will be the last day for presenting tenders for amortization of 5350 dollars of the "Cuotas de Amortizacion;" the interested parties must not only attend in person, but be prepared to produce the bonds they offer for amortization.

It seems that the Reus difficulty is at last in a fair way of being settled, as only two creditors are now morose, refusing to accept the 40 p.c. composition offered. The remaining creditors have allowed Dr. Reus eight days to come to terms with the former, stipulating that if everything is not arranged by that term the engagement is void.

Advices from Sandy Point announce the arrival there of the s.s. Malvinas after a heavy passage. The German s.s. Olympia, which collided with the ill-fated Cotopaxi, was taken 40 miles north, and is now considered safe, though she suffered severely in the collision. Strenuous efforts are being made to make her seaworthy again.

The following passengers have arrived per s.s. Potosi:—

Mr and Mrs Meikle, Miss E Webster, Mr A Baillon, Mr R Hoetie, Mrs and Miss Howard, Mr G Howard, Mrs Huward's maid, Miss M B Lang, Mr T Robinson, Mrs Ralson and family, Mr G Buckler, Mr J C Calvert, Mr J Magdalena, Mr B Block and wife, Mr C Danebiair, Mr H Decall, Mr L Paravicini, Mr F Noquena, Mr P Castells, Mr C Costa, and Mr L Johnson.

The New Anglo-Argentine Bank has secured offices in Calle Piedad between Calles San Martin and Reconquista. We congratulate Mr. Mullus on getting so central a locality.

The statutes of La Americana were handed round to-day. This is a company started to deal exclusively in the lumber business, but it differs from the Astilleros del Chaco Company in this, that the latter only deals with the native supply, whilst the Americana will deal in all. The capital is fixed at 5 million dollars, and the Board is a most able one, which speaks well for the prospects of the concern.

Another new concern started is the Banco Asegurdora del Comercio, the object of which is to secure merchants and manufacturers in their transactions and sales on time; in other words, a merchants' assurance company. The first meeting was held last night, Messrs. Zuberbuhler, Jardon, Laclaustra, Parody, Bilbao, Trouge, Lanus, Mentone, Castañe da, Mignach, Mendez, Lojos, Echeverria, Mieres and others being present, and a committee was named composed of Messrs. Zuberbuhler, Mignach and Parody to draw up a list for a board which will represent all the different branches of commerce and industry. The capital of the bank will be 10 million dollars.

Passengers booked per R. M. S. P. Co's s.s. 'Pagus,' to leave Southampton on May 23rd for Buenos Ayres:—

Mr. F. Browne, Mr. E. S. Holden, Mr. R. D. P. Beresford, Mr. A. Grey, and Mr. F. Vaguier.

Eligible Building Sites

"VILLA MODELO"

Easy terms of Payment

The attention of the English-speaking population of Buenos Ayres is directed to build sites in the newly projected town of "Villa Modelo," one square from the Villa Catalinas Station on the Rosario Railway, within half an hour's journey of the Central Station.

The land has cedulas on it, and the conditions of purchase are most favourable. A large market will soon be in course of construction. These lands are rapidly increasing in value and intending purchasers should apply at once, to
